100k
Hop rate (hops per second)
dwell of 1-2 bursts:
shorter than the follower reaction,
so it never jams
Time-sharing, not a soft regime (JSR = +6 dB)
half the bursts jammed,
half the BER
$f = 1.000$
$f = 0.875$
$f = 0.750$
$f = 0.500$
